

# AiiRO™

## Powerful, Compact Self Defense

AiiRO™ is an effective, simple to use non-lethal defense device that's easy to conceal and carry wherever you go. The patent pending tool can be used by anyone, anywhere. It works by launching powerful blasts of PavaGel, covering the target in a sticky and debilitating chemical irritant. The effects last up to an hour, giving you plenty of time to get to safety and find help. Quick and easy to reload, each cartridge holds two payloads of active ingredient (PAVA or OC). AiiRO™ also boasts a 120dB alarm, emitting a sound as loud as a thunderclap to alert others and surprise and dissuade assailants.

# HERO<sup>®</sup> PAVAGEL

## DEFENSE THAT STICKS

### DESCRIPTION

PavaGel is a non-lethal<sup>1</sup> high grade liquid irritant. Fired in a cone pattern, PavaGel sticks to the target, binding to the receptors that send pain and heat signals to the brain.

Targets experience painful burning sensations on their skin (as if exposed to scalding heat), difficulty seeing, intense coughing, and discomfort for up to an hour. There are no long term effects.

Excess gel falls to the ground rather than hanging in the air, making PavaGel the perfect choice for indoor or crowded areas.

PavaGel cartridges are engineered with a Nitrogen based powerhouse, allowing users to fire at targets from a safe distance.

<sup>1</sup> When properly used as described by the manufacturer.

### SPECIFICATIONS

**VOLUME**

**8.5mL per tube**

**PAYLOAD**

**5-10% PAVA**

**FORMULA**

**PavaGel**

**SHELF LIFE**

**2 YEARS**

**STORAGE**

**32° to 100°f**

**SPREAD**

**21 Inches**

**MATERIAL**

**Aerosol Droplets**
